## THE VERNER RIVALED IN SUBMARINE TALE

Remains of Forty Men From  
Verner's Sepulchre  
Sensational.

Nov. 22.—(A. P.)—An extraordinary story of the salvage of a submarine which went down in the Gulf of Mexico, near the Florida coast, has been published in the New York Herald. The story, which is now being published in many newspapers, tells of a submarine which was sunk by a German U-boat. The submarine was carrying a cargo of war materials, and the crew was killed. The story is sensational, and has attracted much attention.

## HOST TO WILSON AT PEACE MEET

Washington, Dec. 7.—(L. N. S.)—There is nothing to be feared in the process of post-war "reconstruction," if the reports gathered in all sections of the country this week, and made public here today by the federal reserve banking system may be accepted at face value.

## PRODUCTION POWER HIGHLY DEVELOPED

Nothing to Fear in Post-War Reconstruction.  
Slight Lowering of Present Standard of Wages May Be Expected.

Washington, Dec. 7.—(L. N. S.)—There is nothing to be feared in the process of post-war "reconstruction," if the reports gathered in all sections of the country this week, and made public here today by the federal reserve banking system may be accepted at face value.

With the return to civilian life of hundreds of thousands of soldiers within the next few weeks, there may possibly be required a short period of stabilizing the labor market, and in consequence there may be a slight lowering of the present standard of wages. Prices for food and merchandise. Also the necessities of life are already on the toboggan and the corresponding drop in prices will be greater than the lowering in wages, these reports indicate.

How business conditions in the United States have made swift response to the influence of the signing of the armistice is reflected in the summary today.

Up to date when the armistice with Germany was effected, the report states, industrial machinery was being operated over time for the purpose of meeting war requirements, and the productive power of the country was being developed to its highest capacity. Subsequent to the signing of the armistice, there set in a period of uncertainty which lasted less than a week. It was terminated by the signing of the armistice, and the process of demobilization. This process has implied thus far the cancellation of government contracts, the suspension of war work in a variety of lines and corresponding shifting of buying power and modifications of prices in various directions. According to reports written since the signing of the armistice, and relating generally to conditions in the eastern states, the effect of industrial displacement already brought about has been to overcome the extreme scarcity of labor in many lines and to restore a much more normal condition among the working forces.

From such districts, reports come that in certain lines of industry which manufacture both for government and for civilian uses, manufacturing establishments are "marking time," awaiting definite information as to government requirements and the direction of public demand before finally committing themselves to any definite course of action.

**17-19 MEN HOME FIRST**  
Paris.—(N. E. A.)—In demobilization of the French army classes to be released first are those of 187, 188, 189, 190. These men shall be sent at once to their homes.

**Picked Soldiers Man Forts.**  
Paris.—(N. E. A.)—The picked soldiers in the forts refused to fire in most cases. The German admiralty officials tried to drag the British prisoners into the trenches by telling us the crews of the warships were coming ashore to murder all the prisoners.

"On the way we met bands of soldiers and sailors hurrying to the front to get out of the way of the peace negotiations who were supposed to be coming to quell the disorder."

"We traveled part of the way to Denmark over the road by which Prince Henry had escaped. People along the route said Prince Henry was in terror each time he halted for refreshments. They said he could scarcely stay to eat what was offered him."

**PLAN NEW HOSPITALS**  
To Care for Discharged Sick and Disabled Soldiers.  
Washington, Dec. 7.—New hospitals at Norfolk, sites yet to be selected in North Carolina, the Massachusetts Berkshires Hills and at Seattle, are planned to care for discharged sick and disabled soldiers. Assistant Surgeon-General Stinson, of the public health service, today told the public buildings committee in asking an appropriation of \$10,000,000 to provide 5,000 beds as the beginning of the larger construction. An addition also is planned at the marine hospital in New Orleans.

**CONFERENCE DEC. 17**  
Peace Preliminaries Will Be Discussed At Paris.  
Paris, Dec. 7.—(Havas).—The inter-allied conference at Paris to deal with the peace preliminaries will open Dec. 17, according to the Echo de Paris. The sessions of this body, it is thought, will close about Jan. 15. When the preliminary discussions of the peace conference will begin with the admission of the German plenipotentiaries. The probability is that the peace conference may finish its labors at the end of April or at the beginning of May is indicated, according to this journal.

It is believed the new peace conference will be selected from among the members of the government, who will be assisted by eminent technical advisers.

**SETTLE ATLANTA STRIKE**  
War Labor Board Increases Wages, Reinstates Men.  
Washington, Dec. 7.—Increased wages and reinstatement of two employees were ordered by the war labor board yesterday in the Atlanta street car case. Wages of conductors and motormen are to be 35, 35 and 40 cents an hour.

Wages of other employees are to be increased in the same percentage as the maximum for plant men in the form men. Employees under 21 are to receive a minimum of 35 cents an hour. It is provided that none of these rates shall operate to carry the rate for journeymen a figure in excess of the present union craft rates in Atlanta. The award is retroactive to Sept. 23 last.

The company is granted the right to forbid wearing of union buttons by the men while on duty. This action is taken, the award says, because wearing of these buttons serves to stimulate bad feeling and lack of co-operation between union and non-union employees.

The company is under no obligation to recognize the union or to deal with representatives of union men who are not employees, but is advised to continue its announced policy of permitting the organization of employees.

**SIX THOUSAND DEATHS**  
Spanish Influenza Sweeps Samoa—Australia Aids.  
London, Dec. 7.—Six thousand deaths from Spanish influenza have occurred in Samoa, according to a Melbourne dispatch to the Exchange Telegraph company. The Australian government has dispatched a medical staff to Samoa.

**TWICE THOUGHT DEAD**  
Now Lieutenant Is on Road to Recovery.  
Connellsville, Pa.—(L. N. S.)—Twice pronounced dead and wrapped up in a blanket to be carried out for burial in France, Lieut. John E. Wright is back at his home near here and is on the road to recovery. He was shot through the lungs by a machine gun bullet after lying in the mud and water for fourteen hours he was discovered and removed to a hospital. Surgeons recovered the bullet.

To Care for Discharged Sick and Disabled Soldiers.  
Washington, Dec. 7.—New hospitals at Norfolk, sites yet to be selected in North Carolina, the Massachusetts Berkshires Hills and at Seattle, are planned to care for discharged sick and disabled soldiers. Assistant Surgeon-General Stinson, of the public health service, today told the public buildings committee in asking an appropriation of \$10,000,000 to provide 5,000 beds as the beginning of the larger construction. An addition also is planned at the marine hospital in New Orleans.

**CONFERENCE DEC. 17**  
Peace Preliminaries Will Be Discussed At Paris.  
Paris, Dec. 7.—(Havas).—The inter-allied conference at Paris to deal with the peace preliminaries will open Dec. 17, according to the Echo de Paris. The sessions of this body, it is thought, will close about Jan. 15. When the preliminary discussions of the peace conference will begin with the admission of the German plenipotentiaries. The probability is that the peace conference may finish its labors at the end of April or at the beginning of May is indicated, according to this journal.

It is believed the new peace conference will be selected from among the members of the government, who will be assisted by eminent technical advisers.
